

Common Issues Day
Technical Developments and Updates

Status Report of the RIS-Expertgroup
Electronic Reporting International

By
Mr. Peter Stuurman, chair of ERI

What to tell at the end of the day

Vice Chair has been elected

- During yesterdays meeting Mr. vd. Acker representative of the Flemish waterway authorities:
 - has been unanimously elected as vice chair.

Status Report I

- The update of the technical specifications for electronic ship reporting in inland navigation was submitted towards the European Commission and other international institutions have been informed and were asked for comments
 - Some editorial comments were received
 - All comments have been taken into account
 - Last week we received the first comments of the Commission

Status Report II

- Ongoing maintenance of the standard based on new developments, initiatives and implementation of Electronic Reporting abroad Europe.
- Change request additional vessel codes for pleasure craft was accepted yesterday.
- Monitoring the progress of the modification ERDMS.
- In Cooperation with the Expert group NTS a new version of ERDMS was tested.

Roadmap to 2020

- The final draft of a roadmap was discussed in Lille and agreed.
- However the idea is that this roadmap will be a living document and new proposals are still welcome.
- On the base of the agreed roadmap 5 new working groups have started their activities.

5 working groups

1. Harmonisation of “Bics tables” (Mr. Plasil)
2. Harmonisation and use of reference Data (Mr. Polschinski)
3. Maintenance of code- and reference tables (Mr. Polschinski)
4. Experiences from using electronic in reporting in specific transport scenarios (Mr. Vrijaldenhoven)
5. EDIFCAT-XSD (Mr. Oudenes)

Thank you for your patient
attention
