Status Report of the RIS-Expertgroup  
Electronic Reporting International

By  
Mr. Peter Stuurman, chair of ERI

# What to tell this time

# Status Report I

- The update of the technical specifications for electronic ship reporting in inland navigation has been submitted towards the European Commission and other international institutions have been informed.
- The CCNR-secretariat provided some editorial input.

# Status Report II

- Preparatory work for the translation by the Commission
- Ongoing maintenance of the standard based on new developments, initiatives and implementation of Electronic Reporting abroad Europe.
- Monitoring the progress of the modification ERDMS
- In Cooperation with the Expert group NTS a new version of ERDMS is being tested

# Roadmap to 2020

- A second draft of a roadmap was discussed in Budapest.
- Members of the expert group have brought in some proposals.
- Tomorrow we will discuss it.
- However the idea is that this roadmap will be a living document and new proposals are welcome.

# Thank you for your patient attention
