

Notices to Skippers: technical developments and updates

Common Issues Meeting 2016-06-15

Prague

Christoph Plasil, NtS EG chairman

Standardization Roadmap

1. Works on the update of the NtS technical Annex started (Jan 2015)
2. Acceptance of technical Annex at RIS week (June 2015)
3. Provision of consolidated technical Annex towards EC, information towards UNECE, CCNR etc. (July 2015)
4. Finalisation of Appendixes and acceptance by NtS EG at RIS week (November 2015)
5. Submission of NtS technical Annex incl. Appendixes to EC, UNECE, CCNR etc. (December 2015)

Cooperations

- UNECE
 - Resolution No. 80 NtS shall be revised
 - All RIS standards will be topic at the 49th session of SC.3/WP.3 (22-24 June 2016, Geneva)
 - Adoption of Res. 80 proposed for November 2016
- CCNR
 - Technical standard is fine for CCNR, no remarks w.r.t. the content
 - CCNR is waiting for adoption by the EC

Cooperation with EC

- Regular provision of info towards Ms. Luca Farkas (EC) by the RIS EG chairs and RIS EG support
- All EC CR will shall be revised still this year
- On Saturday comprehensive feedback and amendment requests to the proposed NtS standard were provided by the EC

Feedback by the EC

- screening of regulation currently in force shows quality deficits of the baseline regulation (editorial quality)
- screening of the proposed regulation shows improvement possibilities
- re-integration of NtS Reference Tables into the proposed NtS CR required (reference to ERDMS to be removed)
- reference to ERDMS as repository for the RIS Index is possible

NtS Reference Tables

Status November 2015:

- ERDMS shall be mentioned explicitly in the Commission Regulation
- Data is provided in the ERDMS operated by the EC
- the respective Appendix was removed

Status June 2016:

- NtS Ref. Tables have to be published in the regulation
- Former Appendix C has to be re-integrated (will be re-integrated as Appendix E due to the references)

Structure of revised NtS EC CR

- Technical Annex
 - Appendix A: NtS Encoding Guide for editors
 - Appendix B: NtS Encoding Guide for application developers
 - Appendix C: NtS XML Schema Definition
 - Appendix D: NtS Web Service Specification
 - Appendix E: NtS Reference Tables

How to continue?

- 🕒 NtS EG responsible for the technical standard
- 🕒 NtS EG coordinates implementation of NtS
- 🕒 Legal framework out of area of competence of NtS EG
- 🕒 Common understanding and clear communication of boundary conditions needed

ERI WG1: Harmonisation of "BICS tables" with latest version of national RIS Indices
